

NEW SANUS® FOUNDATIONS® FLOOR STAND SERIES FURNITURE

Introducing new wall-mounted TV floor stands

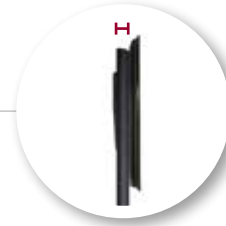

Our new mounting solutions help to free up space on tops of furniture and keep your TV safe on the wall, which reduces the risk of accidental bumping, smudging or tipping. These innovative floor stands are designed for placement behind furniture and include four different wood back panels to conceal TV cables and match surrounding décor. The FS46 and FS56 are easily attached to the wall like a standard mount, but are also supported by two strong steel pillars, sharing the weight of the TV. This allows the mount to be anchored to the wall in any location without requiring wood studs, so your TV can be placed in the best location for your lifestyle and room décor.

FS56 shown

Virtual Axis™ tilting technology lets you reduce glare and find the perfect viewing angle with the push of a finger — no tools required

Minimal depth allows furniture to be positioned close to wall

Both mount and back panel are height-adjustable for flexibility in placement

Adjustable wood back panel neatly hides all cables and wires for a finished appearance

Cutouts accommodate floor moldings, allowing stand to be placed as close to wall as possible

Mount is easily anchored to the wall without requiring wood studs, so TV can be placed anywhere in a room

Includes four panel finishes: cherry, mocha, black and paintable white to match any furniture and décor
